Passcode: 845632

Katherine is an expert in medicinal chemistry, with research interests including fragment-based drug design, structure-based drug design, and optimization of ADME and safety properties. In 2019, Katherine joined Pfizer's Inflammation and Immunology Research Unit as Head of Scientific Planning and Operations.

Katherine is a member of the American Chemical Society (ACS) Board of Directors and Chair of the Board of Publications of the Northeastern Section of the ACS (NESACS).
